

THE PORT AUTHORITY OF NY & NJ

MFP-364.002 New York and New Jersey Marine Terminals - Maintenance Dredging Via Work Order

Original Bid Date: 9/14/2023

Revised Bid Date: 9/27/2023

NUMBER	QUESTION	RESPONSE
1	Can the Port Authority please provide the sediment data for the past two years of maintenance projects?	Was addressed by Addendum No. 1 dated September 8, 2023 and Notice to Bidders dated September 8, 2023.
2	Is a New York/New Jersey license required to submit a bid? It is not specified in the specifications that contractor's be Licensed in those states. We have multiple licenses in multiple states, but we do not hold either New Jersey or New York license so we want to confirm we are eligible to bid.	For bidder requirements, refer to the following in the Contract book: the clause entitled "Prerequisites" on page 2, and paragraphs A and B of the clause entitled "Qualification Information" on page 4.
3	The review of the previous two years chemical data for the maintenance sediment from dredging will require one to two weeks to locate placement sites for management of the material to properly price this project. We request a two week delay in the bid submission date at this time.	Was addressed by Addendum No. 2 dated September 14, 2023.
